EXCITED FOR EXPO 2022

We are another month closer to our **Once Upon a Quilt- Quilt Expo 2022**. Over the past two years, life events /the weather have kept us indoors and have given us the time to work on our show projects. At least, that's what happened to us. We were able to complete several projects and hopefully you also had the same opportunity. If your machine has been left dormant, why not use this wonderful event to generate quilting projects to inspire or motivate would-be quilters in the art of quilting.

Happy quilting,
Roseline Dufour- co-chairperson
Sue Baldauf – co-chairperson

HOW TO MAKE A HANGING SLEEVE FOR YOUR QUILT

WHAT IS A HANGING SLEEVE AND WHY IS IT NECESSARY?

The larger quilts will be suspended on quilt racks made of 2-inch-wide rods. These rods slide through a fabric tube or “sleeve” at the top back of the quilts. This allows the quilts to hang evenly without stretching.

IS IT PERMANENT OR TEMPORARY?

As a temporary measure, the sleeve can be sewn on after the quilt is finished and can be removed later. Some quilters keep these temporary sleeves and reuse them. If you wish to have a permanent hanging sleeve, it can be added at the same time as the binding.

WHAT FABRIC SHOULD YOU USE?

This sleeve can be any fabric. If you plan to have a permanent hanging sleeve, you may wish to match the backing fabric.

WHAT SIZE DO YOU MAKE THE SLEEVE?

Remember this sleeve should be the entire width of your quilt. The sleeve must have enough fullness, so it does not pull and show on the front of your quilt. The instructions here use fabric that is 10 inches wide. Other instructions may suggest 8- or 9-inch widths but your sleeve must be big enough for the BHQG quilt rods.

INSTRUCTIONS

1. Measure the width of your quilt including the binding.
2. Cut (or piece together) fabric to measure 10-inch-wide X width of your quilt plus 1 inch.
3. Fold in the short ends $\frac{1}{2}$ inch and press. Fold in again $\frac{1}{2}$ inch and press. Fold in again $\frac{1}{2}$ inch, press and sew. This eliminates the raw edge

4. Fold the fabric strip in half wrong sides together, press and sew $\frac{1}{2}$ in. seam along the long edge.

5. Press the seam open, centre it and press.

6. Along one of the long edges, fold down and press about ½ inch pleat.

See photo. This allows for a little slack so the quilt will hang better on a rod or slat. Without this slack on the back, you may have a bulge on the front of the quilt where the hanging rod goes through. You can see this slack more clearly on the side view photo below.

7. Use a whipstitch to sew the top edge of the tube to the quilt backing. Stitch into the quilt batting occasionally to help strengthen the seam but do not allow the stitches to show on the front of the quilt.

Whipstitch the lower edge of the sleeve to the quilt. Remove pins. The sleeve will bulge out a bit to allow space for a hanging rod.

Whipstitch the (short) back sides of the sleeve to the quilt. Leave the front sides open to allow for rod insertion.

8. Your hanging sleeve will be the perfect 4 ½ inch size for the BHQG quilt racks.
